

Manron® Foliar

FOLIAR-APPLIED LIQUID NUTRIENT

Mn 5%

GUARANTEED ANALYSIS

Sulfur (S) 3.0%
 3.0% Combined Sulfur
 Manganese (Mn) 5.0%
 5.0% Water Soluble Manganese
 Derived from: manganese sulfate.

2.5 US Gal / 9.5 Liters
 10.6 lbs per Gallon @ 68° F
 1.3 kgs per Liter @ 20° C
 Net Weight 28.5 lbs / 12.0 kgs

DO NOT STORE BELOW 40°F (5°C)

DIRECTIONS FOR USE

DO NOT spray in the heat of the day or when the plant is under moisture stress. DO NOT spray to the point of runoff. Use as fine of a spray mist as possible. Allow 3-4 hours after application before sprinkler irrigating to avoid washing the product off. Shake well and/or agitate before each use.

Recommended mixing sequence: Adjuvants, pesticides, FBSciences nutrient products, other fertilizers, balance of water. When mixing with high phosphate fertilizers, add a citric acid buffer until the pH is 4.5 to 5.0 to improve compatibility and uptake. Ensure agitation is available when mixing with calcium fertilizers. DO NOT mix with crop oil concentrates without first consulting your local agronomist. A standard jar test is recommended before tank mixing.

RATES & TIMING FOR ALL CROPS

Apply **1-6 pints/acre** any time during the growing season; repeat as needed. Do NOT apply higher rates with crop oil concentrates. Use the higher rate with spray volume greater than 50 gallons per acre.

INSTRUCCIONES DE USO

NO rociar en el calor del día o cuando la planta esté bajo estrés hídrico. NO rociar hasta el punto de escurrimiento. Utilizar una niebla de rociado lo más fina posible. Dejar transcurrir de 3 a 4 horas después de la aplicación antes de regar con aspersión para evitar lavar el producto. Agitar bien y / o agitar antes de cada uso.

Secuencia de mezcla recomendada: Adyuvantes, pesticidas, productos nutritivos de FBSciences, otros fertilizantes, balance de agua. Cuando mezcle con fertilizantes con alto contenido de fosfato, agregar un neutralizante de ácido cítrico hasta que el pH sea de 4.5 a 5.0 para mejorar la compatibilidad y la absorción. Asegurarse de que haya agitación disponible al mezclar con fertilizantes de calcio. NO mezclar con concentrados de aceite de cultivo sin antes consultar con su agrónomo local. Se recomienda una prueba de jarra estándar antes de mezclar en el tanque.

TASAS Y MOMENTO PARA TODOS LOS CULTIVOS

Aplicar de **1 a 6 pintas de galón/acre** en cualquier momento durante la temporada de crecimiento; repetir según sea necesario. NO aplicar dosis más altas con concentrados de aceite de cultivo. Utilizar la dosis más alta con un volumen de rociado superior a 50 galones por acre.

WARNING

READ ENTIRE LABEL BEFORE USE | KEEP OUT OF REACH OF CHILDREN

HAZARD STATEMENTS Harmful if swallowed. May be harmful in contact with skin. Causes eye irritation.

AVISO PELIGRO Nocivo si se ingiere. Puede ser nocivo en contacto con la piel. Provoca irritación ocular.

PRECAUTIONARY STATEMENTS Wear protective gloves/clothing and eye/face protection. Wash skin thoroughly after handling. Do not eat, drink or smoke when using this product. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention. **IF SWALLOWED:** Rinse mouth. Call a POISON CENTER or doctor/physician if you feel unwell. Dispose of contents/container in accordance with local/national regulations.
