Gold Foundation™ 5-0-0

DESCRIPTION

Gold Foundation is a liquid nutrient product that is one part of a multi-part nutrient system for use on all plants. Designed to be used in all growing systems/media including hydroponics, rockwool, potted plants, coconut fiber, and/or soil media drip irrigation systems.

DIRECTIONS FOR USE

Use Gold Foundation at 2-20 ml per gallon of water each week during the growth cycle of the plant. FBSciences Gold nutrient products work together to form a nutrient system that should be applied to the plant based on recommended ratios. The rate at which Gold Foundation should be applied will shift from week to week. Consult your FBSciences representative for ratio details. Never mix FBSciences Gold nutrient products together in concentrated form. Add one FBSciences Gold nutrient product to fresh water with complete agitation, and then add other FBSciences Gold nutrient products. Adjust nutrient water pH to 5.2-6.5. Adjustment may be required due to water quality. Shake well before use.

For field applications consult your local agronomic professional.

READ ENTIRE LABEL BEFORE USE

KEEP OUT OF REACH OF CHILDREN

WARNING! HAZARD STATEMENTS

Harmful if swallowed. Causes serious eye damage.

PRECAUTIONARY STATEMENTS

Wear eye or face protection. Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling.

IF SWALLOWED: Rinse mouth. Call a POISON CENTER or physician if you feel unwell. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing. Immediately call a POISON CENTER or physician. Dispose of contents/container in accordance with local/national regulations.
