

# GreenSurge® Foliar

AN ADVANCED 4% MAGNESIUM FOLIAR FORMULATION

GreenSurge® Foliar is a premium, foliar-applied Magnesium product built with a proprietary blend of FBS Transit®, our patented technology, along with various organic compounds that are highly mobile within the plant to support chlorophyll formation and increase photosynthesis. The nutrients in GreenSurge are efficiently absorbed by the leaves and rapidly distributed to the plant for longer term correction of Magnesium deficiency. GreenSurge Foliar is designed for use on all crops including tree nuts, vineyards, fruit, vegetable, grain, and forage crops.

- Increases Chlorophyll Density
- Supports Photosynthesis
- Increases ATP Use
- Improves Enzyme Functions & Protein Synthesis
- Resolves Magnesium Deficiency
- Improved Plant Health & Quality

## GreenSurge Foliar Resolves Magnesium Deficiencies

Deficient Grape Leaf

Healthy Grape Leaf

### Symptoms of Magnesium Deficiency include:

- Interveinal Chlorosis of Older Leaves
- Leaves Curl Upwards Along Margins
- Growth is Slow or Stunted in Springtime when Soil Remains Cold
- Reduced Root Growth
- Smaller Fruit Size & Lower Sugar Content
