DIRECTIONS FOR USE

For best results, use watered-in applications. May be applied via irrigation system or prior to irrigation. Apply enough water to move the product into the area of active rooting, but not excessive amounts that may leach. Use the higher label rates with surface and flood irrigation. Shake well and/or agitate before each use. DO NOT mix with other products in concentrated form without first adding water. Recommended mixing sequence: water, adjuvants, pesticides, FBSciences nutrient products, other fertilizers then agitate. A standard jar test is recommended before tank mixing.

RATES & TIMING FOR ALL CROPS

Apply **1-6 quarts/acre** any time during growing season; repeat as needed.

INSTRUCCIONES DE USO

Para obtener mejores resultados, usar aplicaciones incorporadas con agua. Puede aplicarse a través del sistema de riego o antes del riego. Aplicar suficiente agua para mover el producto al área de enraizamiento activo, pero no cantidades excesivas que puedan filtrarse. Usar las tasas de etiqueta más altas con riego de superficie y anegación. Sacudir bien y / o agitar antes de cada uso. NO mezclar con otros productos en forma concentrada sin antes agregar agua. Secuencia de mezcla recomendada: agua, adyuvantes, pesticidas, productos nutrientes de FBSciences, otros fertilizantes y luego agitar. Asegurarse de que la agitación esté disponible cuando se mezcle con fertilizantes de calcio. Se recomienda una prueba de jarra estándar antes de mezclar el tanque.

TASAS Y MOMENTO PARA TODOS LOS CULTIVOS

Aplicar **1-6 cuartos de galón/acre** en cualquier momento durante la temporada de crecimiento; Repetir según sea necesario.

WARNING: This product contains boron. Over application or excessive use of boron, or use on crops other than those listed, can result in boron toxicity, causing foliar damage or serious plant injury.
